Vert-I-Pak®

SINGLE PACKAGE VERTICAL AIR CONDITIONERS

FRIEDRICH
1883

THE EXPERTS IN ROOM AIR CONDITIONING
Vert-I-Pak® is a quiet, energy efficient option for extended stay properties, suites, assisted living, student housing and commercial spaces.

Ducted and closet-mounted, Vert-I-Pak eliminates the need for multiple through the wall units. The packaged Vert-I-Pak unit is installed out of sight, so guests enjoy a more attractive, more homelike appearance.

Vert-I-Pak® is a quiet, energy efficient option for extended stay properties, suites, assisted living, student housing and commercial spaces.

Ducted and closet-mounted, Vert-I-Pak eliminates the need for multiple through the wall units. The packaged Vert-I-Pak unit is installed out of sight, so guests enjoy a more attractive, more homelike appearance.
**Better Aesthetics**

**Outdoors**
Packaged unit eliminates the clutter of outdoor condensing units and the sleek architectural grille is available in custom colors to match the building’s exterior.

**Indoors**
The unit is installed out of sight, so your guests will only see a wall thermostat.

---

**VERT-I-PAK® IS A SUPERIOR PRODUCT**

Friedrich engineered for quieter performance

Friedrich’s ‘Free Floating’ chassis design and superior insulation help to eliminate vibration noise

The chassis slides into the wall plenum and a gasket firmly seals the chassis to the patented telescoping plenum. This eliminates vibration noises that are transmitted into the room in competitor’s metal-on-metal fixed installations. Extra thick, vibration-absorbing rubber grommets mounted on durable base that is engineered for structural and acoustic integrity.

Foil-backed, 1/2” insulation blanket inside the cabinet reduces sound transmitted into the guest room.

TYPICAL VERT-I-PAK® INSTALLATION

ACCESS DOOR OR PANEL TO CLOSET CAN BE INSTALLED FROM 3 SIDES

- Field-supplied Filter (25” x 20”)
- VPRG4 Access Panel & Return Air Filter Grille
- 3” Clearance on all three sides minimum for service and installation
- Exterior Wall
- Flexible Ductwork
- Rigid Ductwork
- Plenum
- Divider
- VPAWP1-8/1-14 Wall Plenum
- VPDP1 drain pan beneath unit is required on all VEA/VHA24 units. Drain pan must be installed prior to chassis installation
- Chassis is shipped with vibration isolators installed
- Optional field installed drain pan (refer to local codes)
- Optional Platform
- Power Disconnect
A better heating and cooling option inside and out

- Eliminates the clutter of outdoor condensing units and the need for vandalism barriers.
- Completely self-contained
- No refrigerant lines running from floor to floor
- Fast, easy replacement keeps spaces livable

Improved guest comfort

- Individually controlled
- Heat and cool
- Duct air specifically where it's needed, not just on the outside wall
- 2-speed fan with constant fan option on Friedrich RT6 and WRT1 thermostats

A better choice than whole building solutions

- Lower installed cost
- Independent metering [no need to prorate for multi tenant applications]
- Individual temperature set point [one unit can heat and others can cool]
- Less risk, with a whole building system, spaces may become uninhabitable until the system is repaired or replaced
- Vert-I-Pak can be easily accessed for maintenance or replacement

Warranty and Support

- Industry leading warranty features 1 year full warranty on parts and labor and 5 year limited warranty.
- Nationwide service network and U.S. based Friedrich expert technical team ensures you get fast, knowledgeable service.

Vert-I-Pak® ADVANTAGES

**FEATURES**

**Reliable and durable**

- PSC permanently lubricated motor for low maintenance and maximum efficiency
- Engineered drain pan won’t rust, eliminating the risk of unsightly rust stains from condensation on the building exterior
- Painted, 18-gauge galvanized steel cabinet resists corrosion
- Standard safety power disconnect
- Electronic control panel on unit for easy diagnostics and servicing
- 100% run tested prior to shipment—Every unit is tested in every operating mode before it ships for optimal performance and reliability

**Easy installation**

- Can be installed from any interior side (front, right or left)
- Ductable to multiple rooms
- Compact and lightweight, weighs as little as 114 lbs.
- Installation does not require an HVAC technician
- Prewired, charged and piped
- All units are ready to install with only electrical hook up needed to be up and running
- 10” crimped and beaded duct-collar ready to attach flex duct
- Patented telescoping wall plenums adjust to fit varying exterior wall thicknesses
- Primary condensate removal system provided through 3/4” pipe fittings for more placement options
- Secondary overflow from primary drain*
- Central desk control ready
- 24-volt remote wireless or wired thermostat ready
- All units are shipped (on pallet) with return air filter

**DIAMONDBLUE**

Advanced Corrosion Protection

Protects the outdoor coil against deterioration and extends the life of the unit especially in harsh coastal environments.

* 24000 Btu model uses secondary gravity-fed drain. ** Energy management capability requires purchase of additional hardware and service fee

**Energy management thermostats available**

- Wired and wireless thermostats
- Integrated motion and thermal occupancy sensor
- Auto changeover
- 5 distinct energy presets
- Comprehensive remote management capability**
Save big on energy without compromising guest comfort

FriedrichLink® Thermostats, the Energy Management Solution for Friedrich Vert-I-Pak®

Real Time Motion and Thermal Occupancy Sensor
Integrated Occupancy Sensor uses a combination of motion and thermal sensing technologies for accurate occupancy detection at all times - no need to install additional devices such as door switches or sensors.

Wired or Wireless Installation
Wired or wireless connectivity with extensive configuration options deliver full compatibility and easy integration with virtually any packaged HVAC system.

5 Energy Savings Presets
5 distinct energy saving modes make it easy to choose the optimal energy saving settings for any property.

Remote Management*
Web-based remote management provides expansive solutions for remote monitoring and configuration from any computer connected to the internet.

Built-in Wireless Networking enables remote management without using or interfering with property’s existing wireless infrastructure. True mesh networking eliminates the need for additional networking equipment such as signal repeaters or multiple data collection boxes.

*Requires an optional “Online Connection Kit” and a one-time license fee. Optional Humidity Control Feature available through Remote Management. See accessories page 6.

Advanced Energy Saving Features

Fully configurable energy saving modes maximize energy savings without compromising guest comfort.

Temperature setback automatically adjusts the temperature when the room is unoccupied in order to save energy.

Temperature recovery calculates the setback temperature so that the desired temperature can be restored within specified time.

Setback optimization continuously monitors temperature recovery rate in the room and adjusts setback temperature to maximize energy savings.

Setback limits allow maximum and minimum room temperature to be set when the room is unoccupied.

Set point limits prevent guests from setting room temperature to extreme, energy-wasting levels.

Room status displays operation, occupancy and energy efficiency status of each room.

Room detail displays temperature and occupancy changes in a room.

Energy reports monitor energy use and can even evaluate the performance of energy saving features.

Intuitive interface makes it easy to apply different settings to different rooms.

User management allows configuration of custom access permissions and alert notification settings for different users.

Built-in diagnostic tools automatically send email alert notifications to hotel staff.

Friedrich’s EMRT1 and EMWRT1 thermostats use real-time motion and thermal occupancy detection to save energy.

When the room is unoccupied, the thermostat automatically adjusts the temperature to eliminate unnecessary heating and cooling.

Monitor room status and see the operation, occupancy and energy efficiency status of each room.

FriedrichLink® For Lodging
OPTIONAL ACCESSORIES

ARCHITECTURAL LOUVER

VPAL2 and VPSC2
Extruded aluminum grille that attaches to the outdoor section of the wall plenum. Takes in fresh air and returns condensed air. VPSC2 can be ordered in custom colors.

DIMENSIONS: 25 9/16” W x 31 1/16” H

WALL PLENUM

VPAWP1-8, VPAWP1-14
Two-part sleeve that telescopes in and out; sits inside the exterior wall penetration.

VPAWP1-8 telescopes from 5 1/2”–8”
VPAWP1-14 telescopes from 8”–14”

DIMENSIONS: 24 1/8” W x 30 3/8” H
CUTOUT DIMENSIONS: 24 5/8” W x 30 7/8” H

RETURN AIR GRILLE/ACCESS PANEL

VPRG4 / VPRG4R
Hinged panel allows access to unit and return air filter. A field-supplied filter (25” x 20”) should be mounted on the inside grille. Panel can be mounted with return air openings high or low on the door for optimum sound attenuation.

DIMENSIONS: 29” W x 58” H
CUTOUT DIMENSIONS: 27” W x 55 3/4” H

FIRST COMPANY SLEEVE ADAPTER

VPASA1
Single piece, welded adapter allows retrofit into existing First Company® SPXR-series single package vertical unit wall sleeve and louver. Easily connects to Friedrich chassis. Only compatible with Friedrich’s smaller sized VPAK 9k, 12k and 18k units.

SINGLE STAGE THERMOSTATS

RT6
Wired, single stage, wall-mounted digital thermostat has two fan speeds and backlight. Controls Friedrich VERT-I-PAK.

WRT1
Wireless, single stage, wall-mounted digital thermostat has two fan speeds and backlight. Controls Friedrich VERT-I-PAK.

ENERGY MANAGEMENT THERMOSTATS

EMRT1
Wired thermostat has occupancy sensor.

EMWRT1
Wireless thermostat has occupancy sensor.

EMOCT EMRAF EMRHCF
Online connection kit. Remote access fee. Remote humidity control fee.

DRAIN PAN

VPDP1
For VEA/VHA24 models and 10.0 EER VHA18K models. May be installed prior to chassis for easy installation/removal.
