ENDEAVOR®

Innovation You Can Count On

Patented industry-first features and advanced design make the Friedrich Endeavor FWP14AZ a smart choice.

Peace-Of-Mind Performance

Relax, you're covered by a dependable warranty¹—5 Year Parts and 10 Year Conditional Compressor.

Less Environmental Impact

The 7mm condenser coil² reduces refrigerant requirements up to 15%. This lowers the amount of greenhouse gases emitted while contributing to our sustainability goal of a 50% reduction in our greenhouse gas footprint by 2025. A win for all of us.

Reduced Emissions

Households generate 72%³ of greenhouse gas emissions, so switching to a heat pump can make a big difference for the environment—today.

Durable Curb Appeal

Louvered side panels provide excellent protection to internal components, while modern cabinet aesthetics, including the powder coat paint system and one-piece drawn and painted base pan, prevent corrosion—allowing your unit to put its best face forward for years to come.

Quiet Operation

Efficient home comfort shouldn't be noisy. That's why our heat pumps are designed with acoustics in mind. Integrated sound-dampening features such as refrigerant tubing design, fan blade approach, a one-piece drawn base pan and innovative compressor and drive technologies let you enjoy more efficiency—and less noise.
