

A GLOBAL LEADER IN HVAC INNOVATION

Providing exceptional products, solutions, and partnerships

A proud member of the Rheem family of brands, Friedrich is backed by the global leader in heating & cooling and water heating products since 1925. With an unwavering commitment to excellence, we show up for our commercial customers by providing the highest quality products, innovative solutions and exceptional partnerships. Our reliable equipment and solutions, coupled with the necessary specs and tools, have led to successful projects across the US in a variety of commercial applications.

Expansive Line-up of HVAC Products

We have a long history of developing high-quality commercial HVAC products installed throughout the United States. We offer a full line of award-winning commercial and residential heating and cooling products with thousands of configurable models to meet the needs of each application.

Customer-Driven Decision Making

Through constant innovation, we're able to improve our products and meet the ever-changing needs of our customers. Customer and contractor feedback drives us as we constantly look for new and better ways to do things. Listening to the needs of the market is a key part of how we do business. We're not just looking to heat and cool spaces better; we're looking for innovations that make our customers' lives better—before the sale, during the installation and for the duration of the product's life.

Listening to the needs of the market is a key part of how we do business.

KEY BENEFITS of Working with Friedrich

A wide range of reliable products with thousands of configurable results.

Easily accessible product data, drawings and specifications.

A dedicated support team of commercial sales engineers.

Free, easy-to-use web-based tools to spec each project.

Local training centers for contractors.

Continuing education credits through free courses.

Years of experience bringing high-quality products and industry-leading innovations to market.

Valuable Customer Partnerships

Our approach to partnership is built on support, seamlessness and ease of doing business. We provide support throughout the product lifecycle, from ideation to launch and beyond. By creating a repeatable, seamless experience for customers, they can focus on what matters most: running their business. Ultimately, we strive to be easy to do business with so our partners can focus on business objectives like growth and profitability instead of the reliability of their building's HVAC.

LOCALLY BASED, LOCALLY MINDED

At our heart, we're a local company with a global reach. Friedrich Commercial Ducted Air products are designed, engineered, and manufactured in Fort Smith, Arkansas, and our equipment is available through our vast network of distributors, which means local support and parts availability, should the need arise. We're committed to being a responsible corporate partner and supporting our local communities.

Commercial air products are available through a vast, nationwide network of local distributors.

OUR DEDICATION TO INNOVATION

Our five innovation principles—Industry-Driven Design, Serviceability, Reliability, Usability and Sustainability—support our brand pillars and help us to provide you with the best possible products and services.

Industry-Driven Design

Our HVAC products are engineered with direct input from field professionals through customer panels.

Serviceability

Our products are designed to be easy to service so your customers can get back up and running quickly and efficiently.

Reliability

Our ISO 9001 certified facilities employ top-tier components and manufacturing methods, guaranteeing reliability and durability in our products.

Flexibility

Built for flexibility, our controls empower your customers to optimize HVAC systems while freely selecting their preferred thermostat or building management system.

Sustainability

Pioneering sustainability with bold goals, we're dedicated to crafting eco-friendly products, empowering customers to reduce their environmental footprint.
